-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Learning outcomes	Know- ledge	<ul style="list-style-type: none"> Masters the tactics, techniques and procedures (TTP) to ensure own force protection and the protection of the forces deployed in his/her AOR. Knows the main aspects of tactics and subsequently being able to organize the work of the unit.
	Skills	<ul style="list-style-type: none"> Conducts a sound troop leading procedure (TLP) to find a suitable solution in a complex and potentially dangerous environment, to find a tactical solution to complete the mission whilst maximizing force protection. Is able to lead a group. Is able to detect dangerous situations affecting security and independently solving these situations. Is able to communicate in English consistent with his/her professional duties (transmitting orders, opinions, feedbacks etc.). Uses the necessary combat and command equipment in his/her duties and knows how to maintain them. Is able to maintain, safely operate and manage weapon systems and equipment (Remark: If this will be a Common Module with international participation – the institution which organises the Module is not capable to provide weapons systems of host-students).
	Compe- tences	<ul style="list-style-type: none"> Understands the course of action of the platoon command level and takes the necessary initiative to contribute to its success. Is capable of making decisions in an unpredictable, potentially life-threatening operating environment. Performs activities and roles specific to the teamwork on different responsibilities.

Verification of learning outcomes

- **Observation:**
 Throughout the Module students are to fulfil given tasks according to TLPs. During these work students are to be evaluated to verify their competences.
- **Test:**
 Examination at the end of the theoretical part of the module. The type of the test is up to the Course Director.
- **Tactical exercise:**
 During the tactical exercise students are going to be evaluated based on their performance as a leader and squad member. The evaluation is going to be conducted by instructors on the evaluation sheet.

Module Details
