Welcome!

This platform was created in support of the European initiative for the exchange of young officers inspired by Erasmus (the "Initiative"). It aims to enable European Union initial military education and training institutions (Basic Officer Education Institutions - BOEI), to explore possibilities for quantitative and qualitative exchanges of knowledge and know-how through mobility of their students and personnel.

In this toolbox, several functionalities will help you to explore European Union military officers' basic education and training systems:

- Contacts and information on the European Union officers' basic education and training institutes;
- A search engine for identifying possible partners in exchanges, on the basis of criteria selected among the different levers of mobility;
