Braşov, 12 September 2022

To: Chairman of the Executive Academic Board of the Implementation Group

Subject: New Line of development "International Air Defense Semester"

Dear Colonel,

First of all, please let me express my appreciation of your work to create a Common Security and Defense culture among military institutions in Europe and your constant support for the project International Air Force Semester (project developed together with the Hellenic Air Force Academy and Portuguese Air Force Academy). I consider that the fruitful cooperation between the European military institutions is highly important to establish common educational standards and to improve training in the field of military education, according to EU and NATO standards.

The academic staff of "Henri Coandă" Air Force Academy gained a lot of experience in creating an implementation of an international semester during this project.

Based on this I propose to the members of Implementation Group to approve a new Line of Development "International Air Defense Semester".

To demonstrate our deep interest in this new project I would like to nominate Col Assoc Prof Laurian GHERMAN, PhD as a chairman of Line of Development "International Air Defense Semester". He has an extensive experience in academic international relations and is a great supporter of the Initiative.

Sincerely yours,

Colonel (AF) Assoc Prof Marius SERBESZKI, PhD
Rector (Commandant) of "Henri Coandă" Air Force Academy
