Erasmus+

European universities

European universities - transnational alliances, promoting European values and identity, and revolutionising the **quality and competitiveness** of European higher education.

Key principles of European Universities:

- bottom-up alliances of higher education institutions
- open to all types of Higher Education Institutions
- geographically balanced
- socially inclusive

Eligibility:

- Minimum 3 HEIs from 3 Member States or Programme Countries (ECHE universities)
- in addition any other associated partner

Elements implemented by European Universities (long-term vision)

A shared, integrated, long-term joint strategy for education with, where possible, links to research and innovation and society at large

A **European higher education inter-university 'campus'** where typically students and staff can move physically or virtually to study, train, teach, do research, work, or share services in any of the partner institutions.

New joint and flexible curricula are delivered in the three cycles, based on cross-disciplinary/multi-disciplinary and cross-sectoral.

Practical and/or work-based experience is provided by external mentors to foster an entrepreneurial mindset and develop civic engagement;
The student body reflects the diversity of the population.

PARTICIPANT ORGANISATIONS

Applicant/coordinator

The coordinator has the full responsibility to ensure that the proposal is implemented in accordance with the agreement:

- represents and acts on behalf of the alliance towards the European Commission;
- bears the financial and legal responsibility for the proper operational, administrative and financial implementation of the European University alliance;
- coordinates the European University alliance in cooperation with the partners.

Full partners

Contribute actively to the achievement of the European Universities objectives. Each full partner must sign a mandate to confer to the coordinating organisation the responsibility of acting as main beneficiary and act in his name during the implementation of the proposal;

Associated partners

Contribute to the implementation of specific tasks/activities or support the dissemination and sustainability of the alliance. They are not considered as part of the partners of the European University, and they do not receive funding.
