

EUROPEAN MILITARY UNIVERSITIES NETWORK EMUN Joint Long-term Strategy

European Initiative for the Exchange of Young Officers
inspired by Erasmus (EMILYO)
LoD 9 future projects.

5 May 2022

EMUN general idea

- The creation of EUROPEAN MILITARY UNIVERSITIES NETWORK, as part of the European Universities Initiatives project (call 2023), aims to increase the level of interoperability of future activities leading to increasing the security and defense capabilities of individual Member States and the entire European Union, and thus creating stable conditions for ensuring peace.
- The project is a challenge taking into account the assumptions of the program for the construction of the European Education Area until 2025 and the need to meet the sovereignty and security policies of the EU Member States.

We need:

- Mission
- Vision
- Goals
- Mission statement

CONCLUSIONS:

- our goal is to convince the Rector Commanders that the idea is worth engaging
- this project is one of the possibilities for the development of our activity
- a request to join the preparations - information will be prepared, what we have agreed so far, and questions about your University as a potential project participant
- your answers will be the basis for discussion and work at iMAF

What is important for you?

- Blended mobility
- Platform for military universities
- System (network) of virtual classes
- 2-3 weeks „window” mobility in semester (end of November- beginning of October, end of May – beginning of June)
- Possibility of classes (subjects) in the case of absences of teacher

Legal regulations

What are the regulations in your country regarding:

- online and virtual learning,
- creating a network of cooperation with universities from other countries,
- participation in international projects
