Letter of Request

As the Chairman of the Military Erasmus (EMILYO) Implementation Group (IG) please allow me to pass this letter on behalf of all the IG members to you.

In November 2008, the European Union Ministers of Defence decided in their Council of the European Union Conclusions on the ESDP (2903rd External Relations Council Meeting) to establish an Implementation Group for the so-called “European Initiative for the exchange of young officers inspired by Erasmus”, or with other names “Military Erasmus”, “Erasmus Militaire”, “EMILYO” (Exchange of Military Young Officers) or just in short “The Initiative”.

The overall goal of this IG is to harmonise the European Union basic officer education and to increase interoperability, thus increasing Europe’s security. With all its activities the IG shall promote a European Security and Defence Culture, in terms of spreading the idea among the officer cadets and students participating in the basic officer education, that current and future challenges can be better managed together. This goes hand in hand with an education for the Union’s Common Security and Defence Policy (CSDP).

To accomplish this mission we created various lines of development (LoDs). Our initiative has already led to the creation of common semesters for Army, Air Force, and Technical Academies/Universities, while it is at an initial stage for Naval Academies/Universities. A corresponding LoD was developed to investigate cadets’ exchange between Medical Academies/Universities. The initiative was assigned to the Hellenic Military Academy of Combat Support Officers (HMCSO).

However, this avenue of approach for a medical semester proved to be more difficult than the others due to the different educational systems in the EU Member States and mainly due to the non-representation of the specific academies/universities in the IG meetings. I would therefore kindly request from you to assist in this effort by appointing an authorised representative per EU Member State, who will be able to negotiate the terms on which an exchange of medical cadets and students could take place, in line with the standards of the other services.

Yours sincerely,

Col Assoc. Prof. Gell, PhD

Thank you for your attention!
