- 8
- 20
- Only 1-4 to one week mobilities
- 15
- 10
- 4
- 10-12

Q12 — Do you have any other comments you would like to make regarding international activities at your institution?

- Having a organized international office is very important to increase the possibilities.
- If you use the GAREA statistics - you have all the figures in detail.
- Regarding long stays, activities are conducted under bilateral agreements and short international activities are both conducted under bilateral agreements and EMILYO.
- Numbers presented were financed only from Erasmus+. There are many other mobilities of teachers and staff that are financed from Institution's sources. Also short term mobilities of students. But dont have this statistics.
- Because we have civilian students, the total number of activities sited here is much higher. We tried to select only those of them that related to the cadets.

THANK YOU 😊
