

# Proposal for a peer-accreditation mechanism (PAM) for concordance to SQF-MILOF

dr. Mantas Bileišis, General Jonas Žemaitis Military Academy of Lithuania  
EMILYO IG meeting  
NOV20-22, 2023

# Contents

1. What functions do SQF's serve?
2. Proposal development process
3. Benefits & Opportunities
4. Elements of the process

# From single producer-single consumer to networked producers

# Proposal development process

1. Initiated in the first SQF-MILEG meeting **JAN27, 2022**; decision to develop possible courses of action for MILEG's 2<sup>nd</sup> meeting.
2. 3 CoA's with SWOT analysis presented at the 2<sup>nd</sup> SQF-MILEG meeting, **MAY02, 2022**; request for SQF-MILEG members to endorse one of the proposed CoA's.
3. Decision to refine the endorsed CoA on the 4<sup>th</sup> SQF-MILEG meeting, **SEPT19, 2022**.
4. Refined CoE presented at the 5<sup>th</sup> SQF-MILEG meeting, **JAN26, 2023**.
5. PAM abbreviation introduced, and decision to present the mechanism to ESDC EAB and Steering Committee at the 6<sup>th</sup> SQF-MILEG meeting **APR05, 2023**.
6. PAM presented and endorsed at the ESDC EAB meeting of **12 SEP, 2023**
7. PAM presented as information point at the ESDC steering committee meeting of **20 OCT, 2023**

# PAM: opportunity and likely benefits

1. Contribute to the harmonization of learning outcomes
2. Accumulate data about the best practices
3. Develop curricula based on knowledge of best practices
4. Contribute to building trust among institutions

# Elements of the process

1. Mission statement, values, and visual identity
2. Information sharing environment
3. Maintenance of the expert network
4. Scheduling of peer-assessment events
5. Assessment delivery forms and guidelines
6. Analysis and structuration of accumulated knowledge
