- SQF MILOF
- Bloom taxonomy

Comprehension may be defined as the ability to understand and interpret learned information. Some of the action verbs used to assess comprehension are shown in Fig. 3.4.

Fig. 3.4 Some action verbs used to assess comprehension

methodology	Electronic Warfare
<b>First step</b> - determine which <b>competence area</b> and respective <b>learning area</b> covers the topic of the common module. For detailed information see section 02 of the second volume of SQF MILOF package, Reference to chapter 13.1. SQF-MILOF Learning Outcomes, Volume 1	competence area - <b>Military technician</b> learning area - <b>Sustaining the force</b>
<b>Second Step</b> - define the <b>organisation level</b> of SQF-MILOF that the common module is directed to.	Organisation level – <b>Single Arm/Branch</b>
<b>Third step</b> – define <b>EQF level</b>	<b>EQF 6 (Level 2)</b>
<b>Fourth step</b> – fix <b>knowledge, skills and R&amp;A</b> respective to the defined learning area, organisation level and EQF level, using the table in section 04. SQF-MILOF Proper of the second volume of SQF MILOF package	<b>Knowledge:</b> Advanced knowledge of the characteristics and possibilities of the weapons systems / operating platform and C4ISR systems, managing resources in the sustainment realm of operations. <b>Skills:</b> Advanced skills required to operate and maintain specific weapons systems/operating platform and C4ISR systems in safe conditions to deliver requested or planned effects by a higher authority > Manage resources and various projects at an advanced level. <b>Responsibility and Autonomy:</b> Take responsibility to manage scarce organisational resources in unforeseen and changing situations of the operating environment, prioritizing and allocating appropriate resources to subordinate units to accomplish specific objectives in full spectrum of operations and in peacetime.
<b>Fifth step</b> – fix <b>qualifications requirements</b> respective to the defined learning area, organisation level and EQF level, using the table in section 05. SQF-MILOF CORE	Explain the combat service support capabilities of subunits during full spectrum operations > Define the logistics requirements of the (sub)units required to sustain full spectrum operations..
