Positive Aspects

- Learning about the other academies.
- Learning about the military life of the other academies.
- Getting to know different people in a more relaxed context.
- Forging new connections that may be of use in the future.

Negative Aspects

- The amount of time may be too little to get everything the experience has to offer.
- Even though the schedule was well planned and executed, it might be a little too full. Sometimes we had to run to fulfill the schedule and that meant we didn't get to do everything we wanted to.

Conclusions

- Questions

Thank you For Your Attention
