Re: Invitation Letter to the Conference „PROBLEMS AND CHALLENGES IN THE FACE OF CONTEMPORARY THREATS”

Military University of Technology in Warsaw has the privilege of organising and announcing the conference „**Problems and challenges in the face of contemporary threats**” which will be held from 8th to the 12th of April 2024 at the premises of our University.

The event consists of three days of the conference and one-day training using advanced combat drill system ŚNIEŻNIK and MANTIS. The aim of this event is to provide the participants with a general understanding of challenges in modern armed conflicts and promote interoperability among allied forces. What is more, it will be also an amazing opportunity to familiarize the participants with some of the facilities of our University and socialize during sightseeing events.

Military University of Technology will provide accommodation, meals and transport from/to Warsaw Chopin Airport free of charge. There will be no participation fee required. It will be our great pleasure to invite the representatives of different military academic institutions to participate in this event. We would be pleased if you could accept this invitation and nominate two suitable candidates and an accompanying officer for this conference. For all information about the event, please go to the official EMILYO website (www.emilyo.eu).

To confirm your institution's participation in this conference we kindly request that you send your application no later than **9th of February 2024** to International Cooperation Department of Military University of Technology (POC: Cpt. Paweł Jaśkiewicz, pawel.jaskiewicz@wat.edu.pl, +48 261 839 079).

If you have any additional questions about the event, please direct your inquiries on this topic and we will be happy to answer them as soon as possible.

We are looking forward to meeting your representatives among the participants of the conference.
