The course was prepared superbly. On the first day, all necessary knowledge was presented to us. On the second day, we were practicing all the moves performed during the jump. Those two days were very exhausting but we learned a lot of things from our instructors. Then we got the information that we will be jumping next day, we were a little bit shocked because it

was a short period of time but we felt prepared for this challenge thanks to the experience of our instructors.

Sgt. Cdt. Jakub BORYSIEWICZ:

“It may seem ridiculous, but truth be told, it was my first plane flight in my life and the first jump in my military career. Training and theoretical preparations, carried out by the Lithuanian staff, took place professionally and met my requirements. The instructors paid attention to the smallest details so that none of the cadets would be harmed. At first, the jump seemed terrible, but once I jumped, I felt a great relief. An amazing experience that I hope will allow me to ‘develop wings’.”

Cpl. Cdt. Adam TUJAKA:

“It was a great experience, especially because it was my first parachuting jump. Instructors prepared us properly and all cadets assisted us when translation was necessary. Training took us two intensive days and after passing the exam the dream came true. Sky is the limit.”

Cpl. Cdt. Hubert WIŚNIEWSKI:

“Jumping from the plane is an amazing feeling. Before jump, your heart starts to beat hundred times harder but it gives more positive energy and then you realize that nothing matters, there is only sky and you, nothing else.”
