

The 3rd Erasmus+ Gender Seminar

Workshop results: What kind of gender activities should take place in military academies?

Cadet Master Sergeant Markus Rosin

Tartu, 2021

What kind of gender activities should take place in military academies?

Should there be some regular events?

1. Most naturally!
2. Every military academy and/or university should have similar kind of seminar at least once per year with foreign guests! Really important!

What kind of gender activities should take place in military academies?

What kind of events?

1. Maybe even some special/extra event organized by cadets/students to involve them even more to discuss this topic?
2. Military sporting (teamwork) events focusing on gender equality.
3. Give cadets/students similar learning opportunities – role as a plt leader where men and women are completing the same bigger objective. Same for other high stress environment exercises etc. As I concluded it is sadly not the same in every country 😞
4. Events where high ranking officer women share their career path to empower woman cadets - dare to dream about similar career!

What kind of gender activities should take place in military academies?

How else we can raise awareness of gender mainstreaming?

1. Military Academy or/and conscription campaigns, where women are shown to society as successful NCO-s, cadets or officers.
2. Seminars like these should have A LOT more cadets attending because more than anyone, THEY are currently shaping future military! At least to attend similar workshops/brainstorm events.
