The HELPSec Multiplier Event will provide you with the ideal opportunity to get familiarised with the KA 2 Erasmus+ international linguistic project and the experience of its partners, the steps of the project's initiation and the phases of accomplishing its goals and objectives.

You will meet the language experts from the host institution which is the project coordinator and also from the Portuguese Military Academy and the Swedish Defence University which are the project partners. They will give presentations about the three Intellectual Products (IO) of the HELPSec project:

- IO 1 Joint new curriculum “Hybrid English Language Course for Security Professionals”;
- IO 2 Course Modules for the new Hybrid English Language Course – 2 Modules per Institution, and an E-book “English Course for Security Professionals”
- IO 3 Collaborative Web-based Learning Platform <https://helpsec.eu>

During the second part of the Multiplier Event - workshops, you will become involved in doing some of the interactive tasks of the newly-designed learning content for the hybrid course. The six modules of the course, their structure and types of activities will be demonstrated in computer labs by the language teachers from the partner institutions.
