**Colonel Harald GELL, Assoc. Prof.  
The Chairman of the Implementation Group**

### Letter of nomination

for the chairperson of the newly created Line of Development – “Common Logistics Semester” in the framework of the Implementation Group of the European Initiative for the Exchange of Young Officers inspired by Erasmus

Dear Chairman of the Implementation Group (IG),

I seek to express my appreciation and gratitude for the outstanding accomplishments of the Implementation Group throughout the years. Being aware and convinced of the need for active participation in the initiatives stemming from the EU Common Security and Defence Policy, I would like to express my full support to the creation of new working area which reflects the educational profile of our University and proudly nominate Col Mariusz Gontarczyk, PhD for the chairman of the “Common Logistics Semester” Line of Development.

Col. Mariusz Gontarczyk, PhD is the Head of International Cooperation Department of the Military University of Technology. He has been attending IG for over seven years being actively involved in bringing technical academies to be part of the Implementation Group community, participating in several European “Strategic Partnership” projects, organizing first technical Common Module and promoting short and long term exchanges among the students and academics. Col. Gontarczyk is also a member of academic staff since 2000 providing lectures in the area of military and corporate logistics, having more than 100 scientific publication in that area.

Therefore, I would like to thank the Initiative team directed by you and, in order to continue the involvement of Military University of Technology in the Implementation Group of the Initiative, I’m proud to recommend Col Mariusz Gontarczyk, PhD with his exemplary contribution and professional dedication to be the Chair of the logistics’ related new Line of Development.

Yours sincerely,

**Brig. Gen. Prof. Przemysław WACHULAK, PhD, DSc**

**Commandant-Rector of the Military University of Technology**
