Hamburg, 1st November 2018

**Invitation to the Military Sports and Shooting Challenge, Helmut Schmidt
University/ University of the Federal Armed Forces**

Dear Sir or Madam,

Helmut Schmidt University/ University of the Federal Armed Forces of Germany in Hamburg will host an international 5-day sports and shooting challenge for military academies from all over Europe. The competition will take place from **22-26th July, 2019**. It is my great pleasure to invite a delegation of the Theresianische Militärakademie to participate in MSSC 2019.

The Military Sports and Shooting Challenge (MSSC) is now in its 3rd year and has been highly recommended by previous participants. Last summer, we welcomed 11 teams from 9 European countries and we are looking forward to expanding the competition in the future.

Each country may send three participants - **young officers (2LTs) or officer candidates** - who will participate in a range of sports and shooting activities. After these activities are successfully completed, participants receive German awards such as the "Achievement Medal" and the "German Sports Badge". At the end of the competition, there will be a medal night, including a team ranking of all activities.

Of course, social and cultural aspects also play a key role. Participants will have a unique opportunity to gain firsthand insight into Germany's military educational system for officers and officer candidates as well as a chance to meet others from all over Europe. As interdependency and multilateral security cooperation is crucial during times of uncertainty, intercultural understanding is more vital than ever.

A draft regarding organizational issues of the event is attached to the invitation. Costs for accommodation and the program will be covered by the German armed forces. Participating countries only have to finance the travel costs. Due to our local capacities, we are, unfortunately, only able to host a limited number of teams in the event. In case you would like to participate in the competition, please contact us as soon as possible.

If you have any questions concerning the MSSC 2019, please do not hesitate to contact our project officer, 2LT Robin Göbel, via email to MSSC@hsu-hh.de. The registration deadline is the **15th February, 2019**. Please use the attached registration forms.

We are looking forward to hearing from you and to welcoming an Austrian team.

Yours faithfully,

Bjarne Krause
