

Hellenic Air Force Academy, 30 May 2022

To Whom It May Concern,

The Hellenic Air Force Academy is pleased to inform you of its intent to conduct the first “**International Air Force Semester**”, utilizing the framework provided by the “European Initiative for the Exchange of Military Young Officers.”

All courses will be within the Academy’s facilities in a residential format, **from 3 October 2022 to 23 December 2022**. The main goal of the “International Air Force Semester” is to challenge our future officers’ capacity to adapt and operate successfully within the multicultural European Union’s environment.

The semester is orientated toward Pilot and Air Defence Controller cadets. Moreover, it consists of ten (10) Common Modules, offering twenty-six (26) ECTS. According to the seat availability, students from your institution may participate in one or more specific modules.

To that end, I invite you to nominate participants from your esteemed institution to participate in this challenging experience and make the future EU’s Air Force officers better than us.

Kind Regards,

Major General Konstantinos Karamesinis

Hellenic Air Force Academy Commandant
