

Portuguese Air Force Academy Commandant  
Major-General Air Force Pilot Luís Manuel Nunes Serôdio

Dear Rectors, Dear Commandants,

As the Commandant of the Portuguese Air force Academy (AFA), I have the privilege of hosting the international week on 22-26 July 2024. The events include military training on a Forward Operating Base environment focused on developing military tactical skills, decision-making skills, and the practice of techniques and procedures to overcome natural obstacles in a mountainous terrain, e.g. climbing, abseiling, zip lining, etc.

The presentation of this mobility program was carried out during the European Air Force Academies (EUAFA) Commandants Conference on 28-30 June 2023, at the University of Defence, Brno, Czech Republic, and I am honored to invite the Academies, and Universities to participate in this initiative.

Detailed information, such as schedule and registration form, are in the following attachments. It is recommended to send the filled-in forms no later than 30<sup>th</sup> of April 2024 to AFA POC for the EUAFA Working Group.

I look forward to welcoming you to this challenging initiative.

Yours Sincerely,

Luís Manuel Nunes Serôdio
