

Peace, Security and Prosperity Conference 2023

COUNTERING DISINFORMATION

- **Disinformation: The deliberate creation and dissemination of false and/or manipulated information with the intent to deceive and/or mislead (NATO)**
- **Panel 1**
 - Understanding the information environment: Provide a general understanding of the contemporary information environment; better understand the disinformation, propaganda and misinformation challenges; how to effectively counter disinformation.
- **Panel 2**
 - An historical case: OP HUSKY: Far from it, the creation and dissemination of false and/or manipulated information is not a characteristic of our contemporary environment and was always historically exploited. This panel will look at disinformation campaigns and strategies at work during the Allied invasion of Sicily in July 1943.
- **Panel 3**
 - Disinformation - Contemporary case studies: The intent of this panel is to analyse current examples of disinformation campaigns. The pandemic, democratic elections, ongoing wars and military deployments would provide significant sources of analysis.
- **Panel 4**
 - PSP Conference Contest winning students' presentations
