

LoD13 International Technical Semester

European Common Technical Semester for Defence and Security (EuCTS_DS)

We are pleased to announce that the **European Common Technical Semester for Defence and Security (EuCTS_DS)** has been selected by the Romanian Erasmus+ Agency to be funded, following the 2020 call for proposals for **Strategic Partnerships for Higher Education** (Key Action 203). The project code is **2020-1-RO01-KA203-080375**, having an approved budget of **194,791 euro**.

The objectives of the project are the development, testing and designing of a new modular curriculum for an international technical semester for defence and security, at bachelor level, common at European Union, and also the development of a network of teachers with competences in the field of technical systems for defence and security. The development of the project will last two years and the first implementation of the new international technical semester is expected to take place in the 2022-2023 academic year.

The organisations taking part in the project are the *Military Technical Academy "Ferdinand I", Bucharest, Romania* (applicant organisation), *Military University of Technology, Warsaw, Poland*, the *"Vasil Levski" National Military University Bulgaria* (Faculty of Artillery, Air Defence and Communication and Information System from Shumen), *Hellenic Air Force Academy Attika, Athens, Greece* and *Air Force Academy Salon de Provence, France*.

Bucharest, 22nd September 2020
