EUMACS 2023

Consequences and Ramifications of the War in Ukraine to Basic Officer Education

COL. JAVIER DE CÁCERES

SPANISH AIR & SPACE WARFARE CENTRE

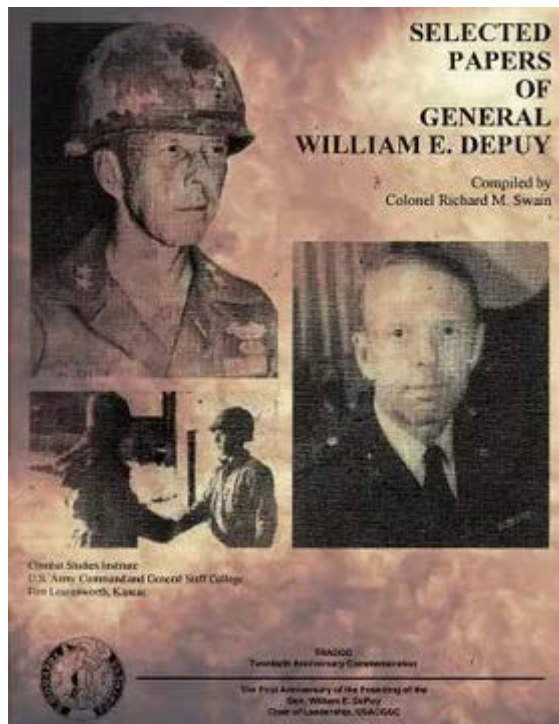

Topics

- ❑ Introduction
- ❑ Nature of the war in Ukraine
- ❑ The way ahead for NATO & EU
- ❑ Some implications for Russia
- ❑ Some lessons for NATO & EU
- ❑ Long-term capabilities development
 - Industry and Technology
 - Doctrine, Education and Training

Introduction

“Careful selection and training of soldiers, including training leaders and units together, matter in the drive for combat readiness”.

**PARA BELLUM
VS
PARA PACEM**

Nature of the War

Civil War
Rusia vs Ucrania War
Proxi War

The way ahead for NATO & EU I

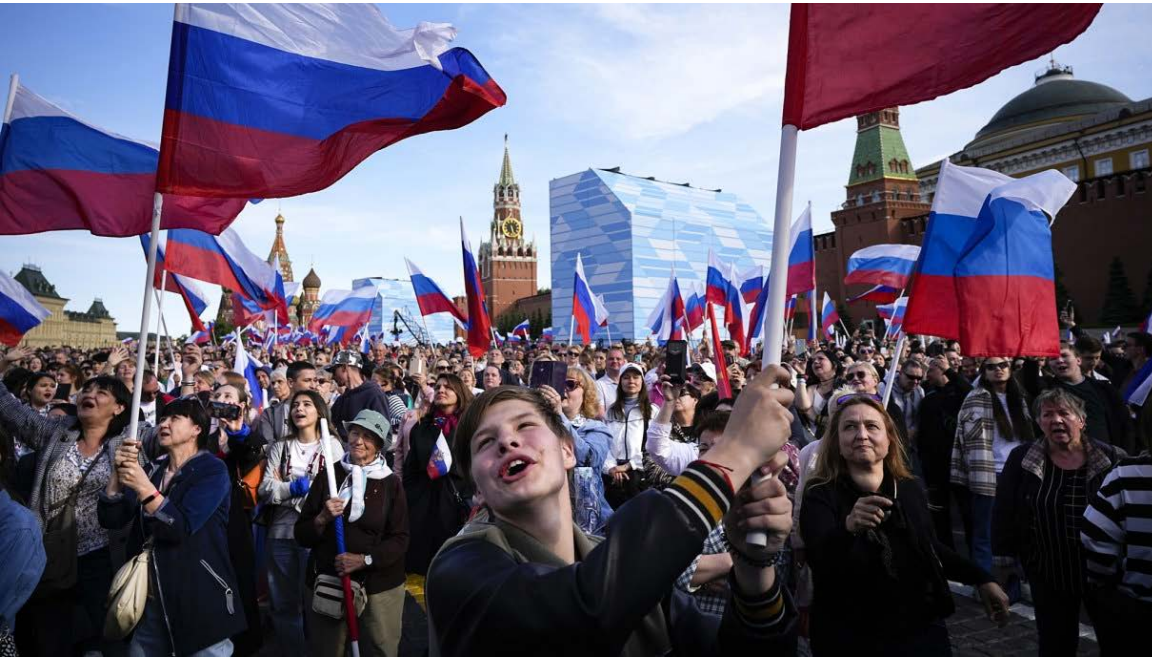

The way ahead for NATO & EU II

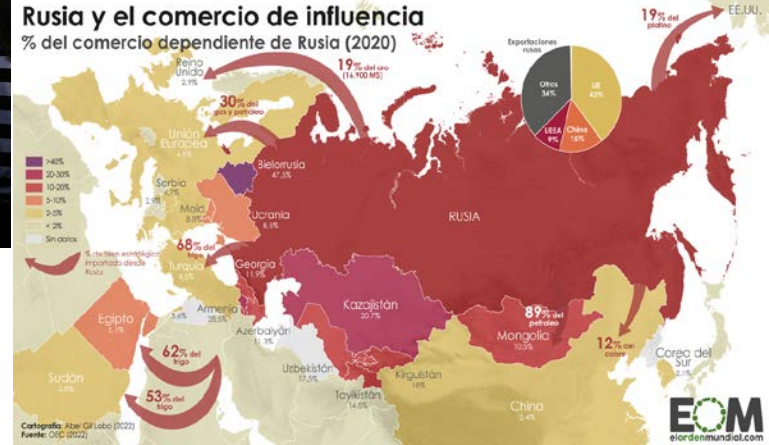

“... we must also start to draw longer-term lessons for EU defence.

Faced with the return of large-scale state-to-state conflict to Europe, what must our future military capabilities look like?”

Some implications for Russia

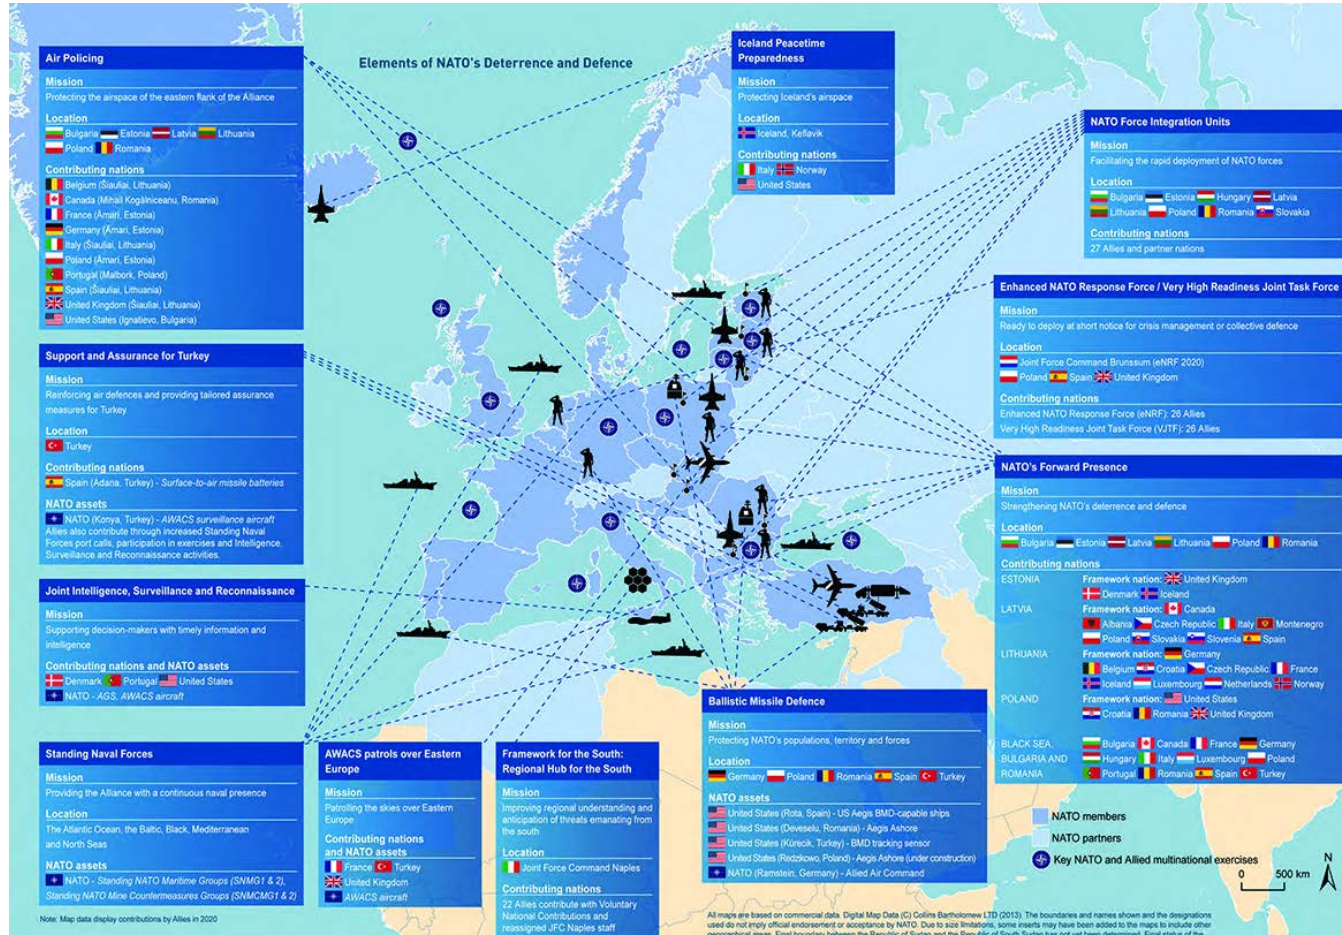

Humiliated, but Not Defeated

Some Lessons for NATO & EU

Deterrence & Defence

Long Term Capabilities Development: Industry & Technology

2023 EU CAPABILITY DEVELOPMENT PRIORITIES to be agreed by MODs at EDA SB NOV 2023

22 PRIORITIES

- Ground Combat Capabilities
- Land Based Precision Engagement
- Future Soldier Systems

- Naval Combat & Maritime Interdiction
- Underwater & Seabed Warfare
- Maritime Domain Awareness

- Air Combat Platforms & Weapons
- Airborne Command & Inform Capabilities
- Integrated Air Missile Defence
- Air Transport

- Space Operations
- Space Services

- Full Spectrum Cyber Defence Ops
- Cyber Warfare Advantage and Readiness

- EMSO Dominance
- Persistent & Resilient C4ISTAR
- Military Mobility
- Sustainable & Agile Logistics

Strategic Enablers & Force Multipliers

- CBRN Defence
- Medical Support
- Critical Infrastructure Protection & Energy Security
- Cohesive & Well-Trained Militaries

Long Term Development: Doctrine & Education

Force Multiplier
