HOW TO GET TO VENICE

(<https://events.veneziaunica.it/en/plan-your-trip/getting-to-venice>)

You could arrive in Venice either through **Venice Marco Polo Airport (VCE)** or **Treviso Airport (TSF)**; once landed, your first goal is to reach the **actual island of Venice**, since the airport itself is located on the mainland. The two main entry points to the city are **Piazzale Roma** (the bus and car terminal) and **Santa Lucia Train Station**. From these gateways, you can continue your journey inside Venice only on foot or by boat.

From Venice Marco Polo Airport (VCE)

Focus on ACTV service

Piazzale Roma is the last point in Venice accessible by car, bus, or taxi. From here, only boats or walking are possible. **Santa Lucia Train Station** is just across the Grand Canal from Piazzale Roma, connected by a short walk or by crossing the **Constitution Bridge (Ponte della Costituzione)**.

AVM/ACTV (Azienda del Consorzio Trasporti Veneziano) is Venice's official public transport company.

It operates both **waterborne services** (vaporetto ferries) and **land services** (buses, trams).

It is the **main mobility backbone**: nearly every transfer inside Venice will require it.

<https://avm.avmspa.it/en> - <https://actv.avmspa.it/en>

The **AVM/ACTV website** is the **main source of official information on mobility in Venice**. It is **comprehensive, well-organized, and regularly updated**, making it the most reliable reference for travelers and residents alike.

Through the AVM website you can find:

- Timetables and route maps for ACTV services (vaporetto, bus, tram, People Mover).
- Current fares and ticket/pass options, including airport connections.
- Real-time service updates, notices, and disruptions.
- Information on other mobility services managed by AVM, such as parking, bike sharing, and car sharing.
- Access to the **Venezia Unica** ticketing platform, where tickets and passes can be purchased online.

These are the main ticket / pass types:

Ticket / Pass Type	Validity / Conditions	Price*	What It Allows	Notes / Restrictions

HOW TO GET TO THE NAVAL MILITARY SCHOOL

“FRANCESCO MOROSINI”

Once you arrive in Venice, either at **Piazzale Roma** or at **Santa Lucia railway station**, the most convenient way to reach the Naval School “Francesco Morosini” is by using the **public waterbus** service ACTV (Vaporetto). From both Piazzale Roma and Santa Lucia, different Vaporetto lines runs frequently during the day and stops at several key points along the northern lagoon.

The journey with Line 4.1, 5.1 or 6 takes approximately 35–40 minutes, offering a pleasant route across some of Venice’s most iconic landmarks. Alternatively, Lines 1 and N (night service) take about 55 minutes, as they travel the entire length of the Grand Canal, allowing you to admire the city from its most famous waterway. Therefore, if time permits, this longer route is well worth experiencing.

From either Piazzale Roma or Santa Lucia, you must continue your journey into Venice by boat: ACTV “vaporetto” or private water taxi or on foot.

School Address: Viale Piave 30/A, Sant’Elena, 30132 (Venezia)

SUGGESTED HOTELS

At present, The Naval School do not have any partner hotels or formally approved accommodations. Nevertheless, we would be pleased to offer guidance on the most suitable areas to consider, in order to ensure convenient travel arrangements during the stay.

In particular, we recommend looking for hotels that best meet your personal needs and are compatible with your available budget in the area near the [Arsenale](#) or [Sant'Elena waterbus stops](#).

Please note that these indications are only meant as general suggestions regarding the location, and should not be regarded as recommended or approved by us in terms of the services offered by the hotels.

TRANSIT TIME TO THE SCHOOL (BY WALKING):

- From "S. Elena" waterbus stop: 4' (300 mt)
- From "Arsenale" waterbus stop: 20' (1.7 km)
- From "S. Marco – S. Zaccaria" waterbus stop: 30' (2,1 km)

If you have chosen an ACTV Pass (e.g. the **72-hour pass**), which includes unlimited use of the vaporetti, you might also consider staying near a vaporetto stop served by a line that calls at **Sant'Elena**; in this case, it is important to **check the vaporetto timetables** to make sure there is a boat arriving at Sant'Elena at a convenient time, since the stop is only a few minutes away from the school.
