Handbook 2022 Financing the Initiative

Colonel Paulo Machado

Financing the Initiative

Participation in initiatives is not regulated through a fully standardized mechanism. In terms of funding, however, it will be possible to take as an example some sources of funding that could be used to adequately finance participation, increasing activities between institutions and contributing to the creation of an increasingly common training. Funding sources may be internal to the institution, or external, through the support of entities outside the institution.

Sources of Financing
Various Funding Possibilities to support the International Activities

Most used Funding Sources of Financing

- 01. ERASMUS Program
- 02. Institutions Own Funds
- 03. Funds from ESDC
- 04. Scholarships

GOALS

- 01. Understand the various sources of funding that may support participation in the different activities of the ESDC
- 02. Recognize possibilities, advantages and disadvantages in using different sources of financing
- 03. Analyze the most appropriate funding sources for participation in the various activities
- 04. Assess success factors and lessons learned from successful engagements funded by innovative schemes.
- 05. Share knowledge about possibilities for participation and innovative funding schemes that are relevant to increasing participation
- 06. Share practical experiences with IS members and support others in overcoming different barriers.
- 07. Publicize other forms of funding for participation in activities.
