ACADEMIC AVIATION TRAINING CENTRE

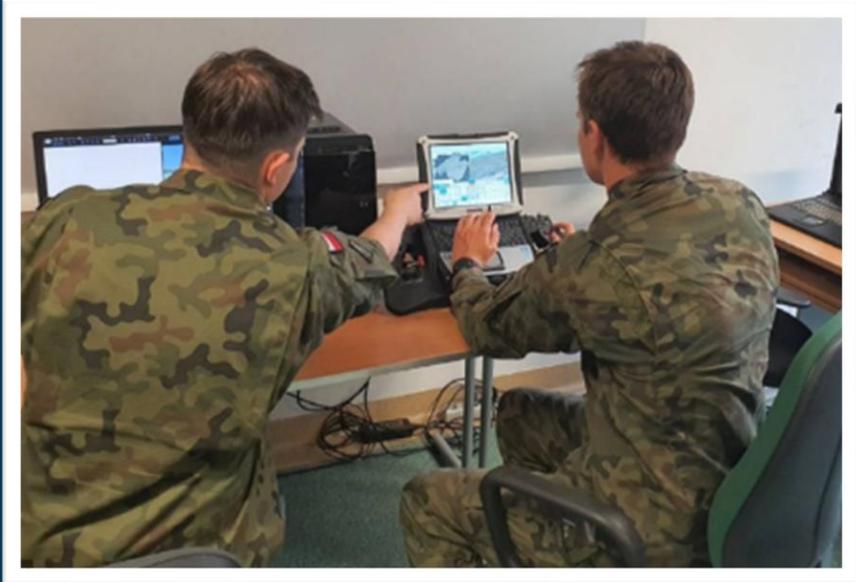

ACADEMIC AVIATION TRAINING CENTRE

The Academic Aviation Training Centre (AATC) is an Approved Training Organisation with a certificate approved by the Polish Civil Aviation Authority.

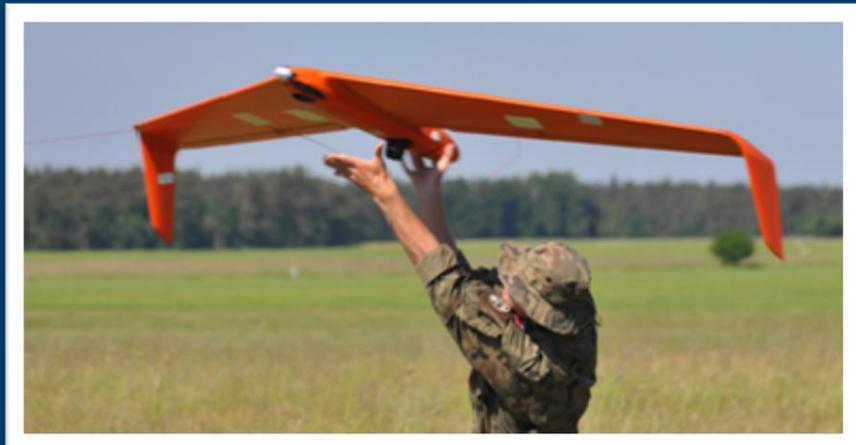

We offer a full range of pilot training courses:

- ✓ Airline Transport Pilot License Theoretical Knowledge Course ATPL(A);
- ✓ Commercial Pilot License Aeroplanes CPL(A) - Theoretical and Practical Training;
- ✓ Commercial Pilot License Helicopters CPL(H) - Theoretical and Practical Training;
- ✓ Private Pilot License Aeroplanes PPL(A) - Theoretical and Practical Training;
- ✓ Private Pilot License Helicopters PPL(H) - Theoretical and Practical Training;
- ✓ IR(A) SE Training (according to EASA or internal rules of AATC);
- ✓ IR(A) ME Training (according to EASA or internal rules of AATC).

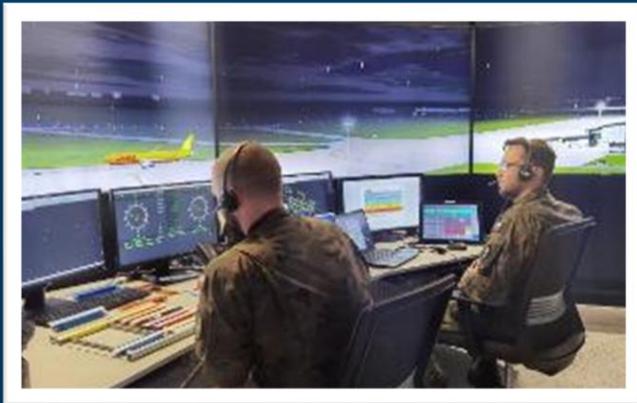

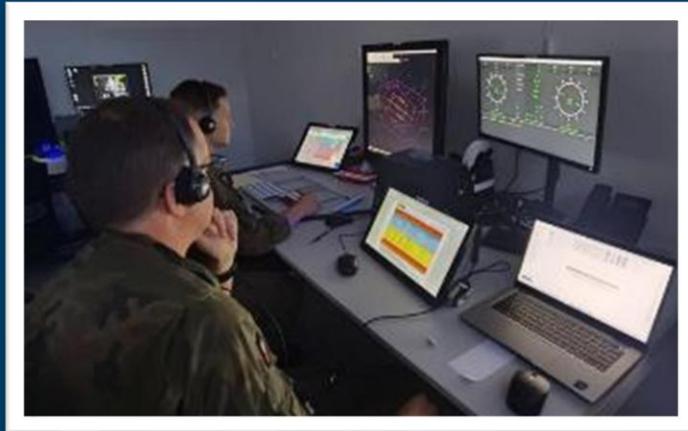

UAV TRAINING CENTRE

- Support for the Faculty of Aviation in the implementation of specialized subjects, i.e. aviation law, rules of use, tactics, operational procedures, construction and operation of UAV systems.
- Aviation training to the level of military qualification certificates for FlyEye 3.0 UAV, Orbiter.
- Training to obtain a civil UAV pilot competence certificate in the "special" category according to the National Standard Scenario

AIR TRAFFIC SERVICES PERSONNEL TRAINING ORGANIZATION

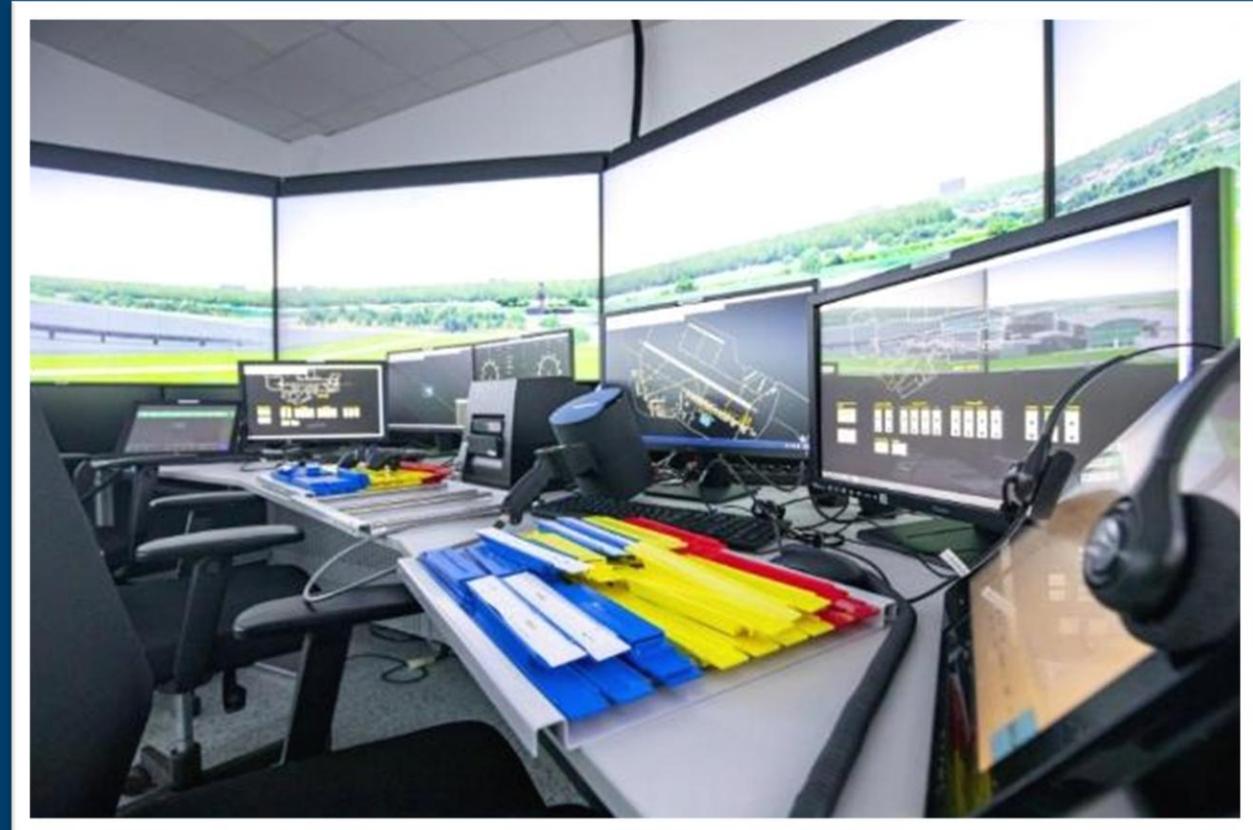

AIR TRAFFIC SERVICES PERSONNEL TRAINING ORGANIZATION

ATSPTO utilizes a modern Air Traffic Control Simulator, that encompasses modern and effective ways to train air traffic controllers, complying with the latest demands in the simulation industry.

It is a modular and flexible system that is used to simulate a wide range of air traffic control operations.

It can simulate different stages of flight control such as: approach, tower and ground control. For tower and ground, the simulator provides a full 3D module allowing a realistic view of the airport.

The simulator is fitted with a large range of tools in order to simulate different control situations, working positions and environment.

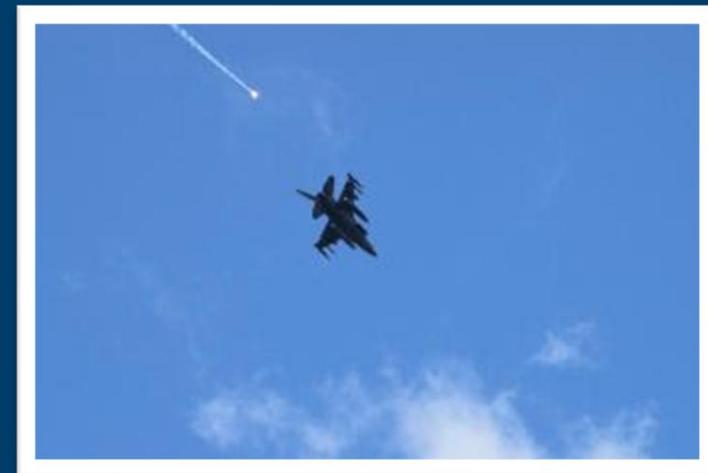

GROUND CONTROLLED INTERCEPT TRAINING CENTRE (GCI TC)

GCI TC main task is to provide complex training according to NATO/US standards for ground personnel (GCI/ABM).

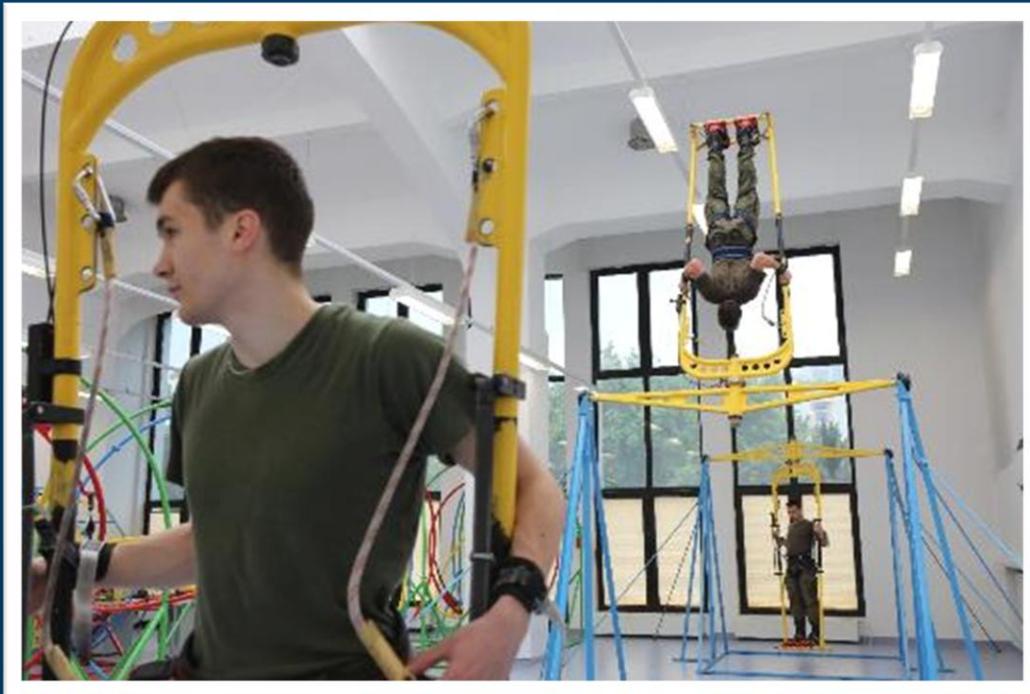

MULTINATIONAL AIR-GROUND INTEGRATION SCHOOL (MAGIS)

MAGIS main task is to provide complex training according to NATO/US standards for ground personnel (JTAC/TACP and JFO) and aircrews engaged in Joint Fire Support operations (CAS, CCA, CFF).

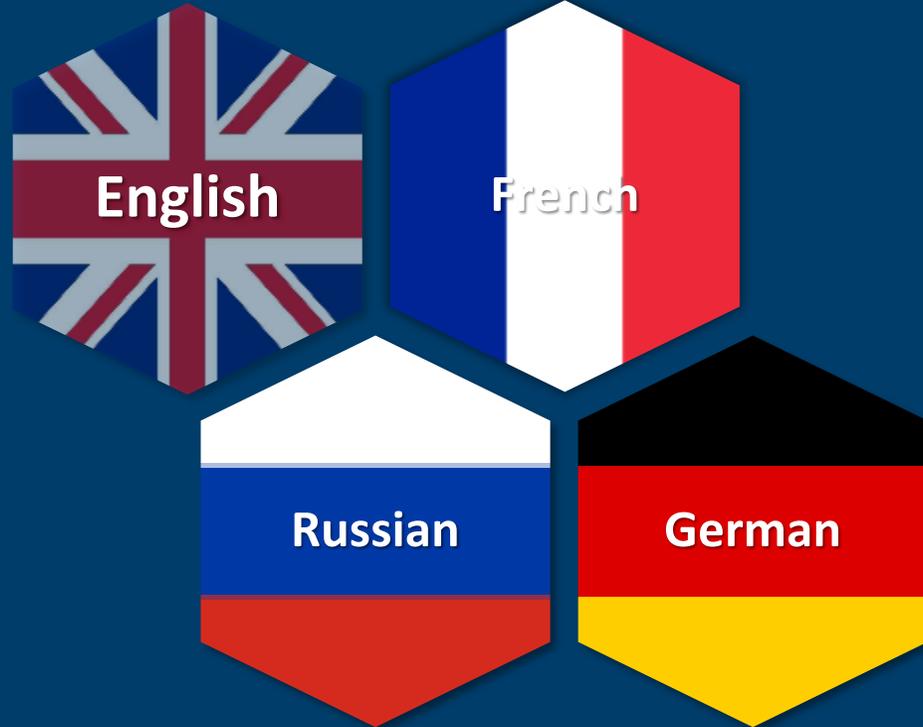

PHYSICAL TRAINING CENTRE

Physical Training Centre is a unit created at the University to provide didactic and educational activities concerning physical and fitness exercises as well as flight preparation.
