

LoD – 17

AGENDA OF THE

1. Collection of feedback from participating institutions regarding the first iteration of the IADS.

2. Analysis of the teaching exchanges conducted during the IADS.

3. Discussion of cadets' feedback following the first iteration of the IADS.

Conclusions

1. The first iteration of the IADS was assessed as successful and valuable for further development.
2. Participants expressed a high level of satisfaction with the academic, organisational and intercultural aspects of the programme.
3. The quality of teaching, course content and support provided by receiving institutions was positively evaluated.
4. The IADS proved to be an effective platform for multinational cooperation in air defence education.

BG AFA	0	0	0
Rakovski National Defence College (RNDC)	0	3	3
PLAFU	0	0	0
RO AFA	1	0	1
Total Incoming	1	4	Teachers

Recommendations

1. Future curriculum updates should include the implementation of new educational content related to Airspace Management in accordance with the latest NATO doctrine AJP-3.3.5
2. The main priority for the next edition is to start the planning phase early and increase the number of participating institutions.
3. Future development activities should include assessing the possibility of creating a common module based on existing subjects related to Air Threats and C-UAS operations.
