BUCHAREST - ROMANIA

TO: Chairman of the Implementation Group of the Military Erasmus Initiative

LETTER OF NOMINATION

Dear Colonel, dear Members of the Implementation Group,

I am pleased to nominate **Major Associate Professor Engineer Andrada-Livia CIRNEANU**, PhD, of the Military Technical Academy "Ferdinand I" (RO MTA), Bucharest, for the position of **LoD22 Chair of the Implementation Group**. I hereby confirm the Academy's full institutional support for her candidacy, including funding for travel expenses and participation in at least four Implementation Group meetings per year.

Dr. Andrada-Livia CIRNEANU completed her postdoctoral studies at the National University of Science and Technology POLITEHNICA Bucharest and holds a PhD in Systems Engineering, alongside advanced military, engineering, and national security training.

Currently an Associate Professor in the Department of Weapon Systems Engineering and Mechatronics, she has demonstrated excellence in teaching, research, and academic leadership. She coordinates the Erasmus+ project *Digital Mathematics Applied in Defense and Security Education* on behalf of the Military Technical Academy "Ferdinand I" and has contributed to fourteen national and three international research projects. Her achievements include a scientific book, a laboratory guide, and more than twenty papers published in international conferences and scientific journals. In addition, her experience as a military officer involved in the testing, evaluation, and logistics of weapon systems provides valuable practical insight that complements her academic expertise.

Dr. Andrada-Livia CIRNEANU has also gained substantial experience in quality assurance and accreditation processes for higher education programmes, including the preparation of ARACIS accreditation and self-evaluation reports, compliance documentation, and performance indicators. Combined with her strong leadership, organisational, and interpersonal skills, this experience provides a solid foundation for contributing to the objectives of LoD22. Her academic excellence, military experience, expertise in quality assurance, and commitment to international cooperation make her exceptionally well qualified to serve as LoD22 Chair.

Finally, on behalf of the Military Technical Academy "Ferdinand I", I would like to express our sincere appreciation for the dedication and vision that continue to drive the Military Erasmus initiative forward. We remain firmly committed to supporting this initiative and look forward to contributing actively to its continued development and future success.

Yours sincerely,

Brig.Gen.Prof. Eng. Constantin-Iulian VIZITIU, PhD

Commandant/Rector of the Military Technical Academy "Ferdinand I",

39-49, George COȘBUC Avenue, Sector 5, 050141, Bucharest, ROMANIA
