

*Comandante da
Academia da Força Aérea*

DEAR COMMANDANTS,
DEAR RECTORS

As the Commandant of the Portuguese Air Force Academy (AFA), I have the privilege of hosting the military skills training program on 14-18 July 2025. The events include military training on a Forward Operating Base environment focused on developing military tactical skills, decision-making skills, and the practice of techniques and procedures to overcome natural obstacles in a mountainous terrain, e.g. climbing, abseiling, zip lining, etc.

The very well succeeded last year edition motivates us to engage in the organization of the 2025 edition, and I am honored to invite the Academies and Universities to participate in this initiative. Detailed information, such as schedule and registration form, are in the following attachments. It is recommended to send the filled-in forms no later than 10th of May 2025 to AFA Point of Contact (POC) for the EUAFA Working Group, Major Pedro Guerreiro (pmg Guerreiro@academiafa.edu.pt).

I look forward to welcoming you to this challenging initiative.

Yours Sincerely,

*AFA, Sintra, 22nd of April of 2025
Commandant of Portuguese Air Force Academy*

*Fernando Manuel Lourenço da Costa
Major-General*
