Dear Commandants, Rectors and Distinguished Colleagues,

The module is organized within the framework of the European Initiative for the Exchange of Young Officers (EMILYO), Line of Development 18 – Language Education and Training, and aims to bring together academic staff from all disciplines who teach in higher education and wish to enhance their teaching competences in an international environment.

The course is designed to strengthen participants' communication skills in English, promote innovative and interactive teaching methods, enhance intercultural competence, and encourage the exchange of ideas, professional experience, and best practices among educators from European military higher education institutions. The programme will also include academic, cultural, and social activities aimed at fostering international cooperation and professional networking.

There is no participation fee. Participants are encouraged to attend the course with the support of an Erasmus+ Staff Mobility grant provided by their home institution. The Bulgarian Air Force Academy will provide local transportation between Sofia Airport or Sofia Central Railway Station and the Academy for participants at the beginning and at the end of the event.

The detailed programme, administrative information, and application form will be distributed shortly.

We look forward to welcoming your representatives to Bulgaria and to sharing a productive week of professional development, collaboration, and international cooperation.
