

Dear Chair, Vice-Chair and Member of IG,

Dear Partner Institutions,

since June of last year, Economic and Financial Police Academy has taken its first steps within the EMILYO umbrella and we are actively working to further internationalize the educational and training pathways of our Institution.

I am pleased to invite you all to the International Conference on “Cyber Security in defence of the economic and financial interests of the European Union”, which will take place from 7th to 8th July 2026 at our Academy in Bergamo.

The International Conference will be organised by the Italian Economic and Financial Police Academy, in partnership with the University of Bergamo, under the auspices of the European Security and Defence College (ESDC), in the framework of the European initiative for the exchange of young military officers, inspired by Erasmus (EMILYO).

In light of the current international geopolitical context, the conference aims to provide a high-level forum for the exchange of ideas and best practices related to the various forms of cyber threats currently in existence, as well as the countermeasures to prevent and fight cybercrime and cyberattacks.

We will welcome distinguished European and Italian institutional speakers who are directly engaged in operational activities in this field. In addition, participants will be involved in practical case studies focused on addressing and resolving cyber threats of this nature.

There will be also opportunities dedicated to personal development and networking, and participants will have the occasion to visit the wonderful setting of Lake Como.

For registration and other details, please check the administrative information to the following link <https://www.emilyo.eu/mobility-offers-multiplier-events>.

I sincerely thank you for the opportunity granted to our Academy and look forward to welcoming you in large numbers to the Economic and Financial Police Academy.

Yours faithfully,

*The Commander of Guardia di Finanza Academy
Major General Cosimo Di Gesù*
