

		MCC - MILITARY CLOSE COMBAT COURSE 2027			
December 7–18, 2026 - Virtual Component					
Theory focused on military close combat, including the fundamental principles, techniques, tactics, safety procedures, and training methodology necessary for successful course completion. Participants will also submit video of their fitness training as will be requested. At the end of the virtual component, participants' knowledge will be tested in the form of a quiz (questions and answers).
